Travel within 1.5 hours of Baltimore

"Piper was great not only on the big day- but supportive and helpful leading up to it. We got tons of compliments from friends and family on how easy she was to work with, how fun she made pictures, and how she put everyone at ease. Her assistant John was also awesome. Between the two of them, we felt like we had two new friends documenting our journey into married life and it was just FUN."

---	--	---	--	---

Why would you want a 2nd Photographer?

If your guest list is larger than 75 and/or you two are getting ready in entirely separate locations....

- Simultaneous coverage of *each* of you donning the final touches prior to the ceremony, wedding jitters, candid with family and friends etc - it's always neat for couples to see in retrospect what the other was doing leading up to the main event! Great keepsakes.
- Smooooooth family photo session - either prior or post-ceremony, but the second photographer also acts as my right hand (wo)man for this portion of the day to ensure that it is quick and painless - no one wants to take family formals for 30 minutes! I aim to knock it out fast so you can all move on to the fun but that everyone all dressed up and lookin' good is documented!
- Cocktail Hour coverage and candid - usually the 2nd is shooting this while we three + wedding party are taking fun photos.
- Double coverage of reception - be it funny or touching anecdotes delivered by friends and family to skills on the dancefloor, the wedding day flies by so quickly that my goal for you in the photos is that you can relive moments that you spent a year planning for and may have missed or in twenty years may have forgotten were it not for the images.

"My wife and I hired Piper as our wedding photographer. It was a wonderful decision. The quality of work, but more importantly, her eye for what was photo-worthy was impeccable. She was everywhere, but never in the way. I recommended Piper wholeheartedly and without reservation!"

- Joe + Robin

Travel Notes

Considerations for regional weddings more than 75 miles outside of Baltimore

- Accommodations the night prior to the wedding, and in some cases the night of if reception photography lasts past 10pm
- 1.5 hour driving time included, further travel will be billed at the current mileage fee by Uncle Sam (IRS rates) - 55.5 cents/mile

"As a fellow professional photographer, I only wanted the best for my sister's wedding in 2009. Piper photographed the entire event with outstanding service and results. She has the empathy and passion to create images that truly represent the emotions present. I also hired Piper to photograph my own wedding in 2012, which is a huge honor in our industry. In addition, she has traveled the globe donating her time and effort to help those in need. Piper is an incredible photographer, and more importantly, a wonderful person."
